- **Research Skills:** Adaptive,Time Management ,Problem-Solving,Organization

TRAININGS /EXPERIENCE

- **Achievers Technologies** 10 Aug - 10 Oct
Php Developer Kurukshetra
- **Achievers Technologies** 20 Aug - 7 Oct
Python With Database Trainee
- **Achievers Technologies** 6 Aug - 15 Oct
Web Developer Trainee
- **Hopping-Minds** 10 July - 23 Aug
Full-Stack Intern Mohali

PROJECTS

- **Blood Donation Management System** 8 Oct 2021
 - I made this project for my own college for the blood donation fair that is held every year, which can store everyone's information and that too easily.
 - Technology Used: Html, Css, Javascript, Bootstrap, Php, Xampp Server , Mysql Database
- **Billing System with Python:** 10 Oct 2022
 - I made this project on billing system which used to give all kinds of information about every product The biggest benefit of this project was that we could check the quantity and quality of the product along with the price simultaneously.
 - Technology Used: Python , Tkinter, Xampp Server, Mysql Database.
- **Agri-Farma in Full-Stack:** 10 Nov 2024

This project will provide a platform to all the farmers from where they can buy medicines for their farms.

 - In this, farmers can also see the latest information and offers from the government
 - Technology Used: Html, Css, JavaScript, Bootstrap, React js + Vite, Node js, Mongo DB

ACHIEVEMENTS

- Participated in Smart India Hackathon and KAVACH Hackathon
- Organized various events at JMIT
- Runner Up in Jaipur Hackathon
- College Club Convener

ADDITIONAL INFORMATION

Languages: Hindi, English, Punjabi

Interests: Travel, Music, Coding, New Innovation, Reading, Craft
